## Braining

Safe & effective neuro-feedback brain training  
Braining is short for "brain training." It's a great option for dogs and cats who struggle with anxiety. Neuro-feedback nodes attached to your pup's body measure and interrupt turbulent brain activity. The treatment instantly and gently trains your pet's brain to release habitually nervous responses to ordinary daily moments.

### Benefits of braining

- Improved Sleep
- Increased Trust & Bonding
- Decreased Anxiety
- Can Enhance Medical Treatment
- Overcome Past Trauma
- Gentle & Non-Invasive
